

DAILY VEHICLE CLEANING

Follow these steps DAILY:

- Use disinfecting wipes or soap & water.
- If available, wear plastic gloves.
- Wipe down high-touch areas in the vehicle, to include dashboards and door handles. (see Diagram)
- After cleaning the vehicle, wash your hands with soap and water for 20 seconds or use a hand sanitizer containing at least 60% alcohol.
- Regularly wash your hands during the day.
- Keep vehicle locked and secure while away.

Note: If a deep-cleaning disinfection is needed, contact Safety or Logistics for further detailed instructions.
